

Statute's Abstract

Name: "BiostatEpi - Association for Information and Training in Biostatistics and Epidemiology "

Legal Office: via San Gerardo 5, 20052, Monza, Italy

Aims: The Association is a non-profit organization. The Association's aims are:

- a) To promote training and brush-up initiatives especially in the area of Biostatistics, Epidemiology and Public Health;
- b) To organize scientific meetings, workshops, round tables and other initiatives related to the fields of Biostatistics, Epidemiology and Public Health;
- c) To start an editorial activity around the above mentioned themes;
- d) To provide consultancy in the area of health issues.

Associates: Associates are **Founders, Ordinary, Honorary and Supporters**. Associates will enjoy the right to use all the Association's equipment and infra-structures. Being a member of the Association has a free and voluntary character, but binds associates to the respect and observance of the norms contained in the present Statute.

Founding associates are the individuals who established the Association. Ordinary associates are those individuals whose application has been accepted by the Assembly. Honorary associates are individuals and organizations who, having acquired special merits toward the Association, are enrolled as associates in the members' register according to an Assembly's resolution. Supporting associates are those individuals and organizations that provide financial contributions to the Association's activities in amounts considered suitable by the Assembly that deliberates their admission.
