

Summer School on Modern Methods in Biostatistics and Epidemiology

13 - 26 June 2010

Final deadline
30 April 2010
Special rates until
30 March 2010

Cison di Valmarino–Treviso, Italy
Castello Brandolini Colombaro

14-19 June 2010

Course block 1

Biostatistics I
Applied Linear Regression
Applied Logistic Regression

Course block 2

Principles of Epidemiology
Causal Inference
Survival Analysis

21-26 June 2010

Course block 3

Statistical Genomics
Applied Longitudinal Analysis
Monitoring and Evaluation of Health Program

Course block 4

Biostatistics II
Evidence Based Public Health
Statistical Methods in
Environmental Epidemiology

13 June 2010

Stata® Course 1

Introduction to Stata®
Epidemiology with Stata®
Meta-analysis using Stata®

20 June 2010

Stata® Course 2

Introduction to Stata®
Analysis of Prospective Studies with Stata®
Regression Modelling Strategies with Stata®

Scientific Director

M. Pagano (Harvard University), J. Palmgren (Karolinska Institutet)

Course Directors

J. Adami (Karolinska Institutet), R. Bellocco (Milano-Bicocca, Karolinska Institutet),
M. Bonetti (Bocconi University), R. Gnesotto (Regione Veneto)
